like any goal oriented procedure experiment is subject to many kinds of failures these failures have a variety of features depending on the particulars of their sources for the experimenter these pitfalls should be avoided and their effects minimized for the historian philosopher of science and the science educator on the other hand they are instructive starting points for reflecting on science in general and scientific method and practice in particular often more is learned from failure than from confirmation and successful application the identification of error its source its context and its treatment shed light on both practices and epistemic claims this book shows that it is fruitful to bring to light forgotten and lost failures subject them to analysis and learn from their moral the study of failures errors pitfalls and mistakes helps us understand the way knowledge is pursued and indeed generated the book presents both historical accounts and philosophical analyses of failures in experimental practice it covers topics such as error as an object of study learning from error concepts and dead ends instrumental artifacts and surprise and puzzlement this book will be of interest to historians philosophers and sociologists of science as well as to practicing scientists and science educators

looks at gender and corruption

the need to understand how to design set up an investigative experiment is nearly universal to all students in engineering applied technology science as well as many of the social sciences this book offers an introduction to the useful tools needed including an understanding of logical processes how to use measurement more

this text is intended as a first text in understanding experimental research in music it is intended to accompany a workbook that provides specific examples and guidelines for the novice researcher in experimental research

there is no doubt that this book will be well received by those who are fortunate enough to come across it this book will be of use to the growing number of people involved either as purchasers or providers of research don't go to work without it health services management research journal i would recommend this book to a colleague as a useful companion text for

students i would say that this is an engaging discussion of experimental research for social behavioral and health science students the writing style is fresh and entertaining and draws the willing reader into thinking through the process of designing and conducting experimental research it is not a cookbook or a compendium of facts rather it is a pragmatic and thoughtful description intended to help students understand how to design meaningful experiments and by understanding that they will also understand how to interpret research they do not conduct themselves katharyn a may school of nursing vanderbilt university this slim but packed volume is written for prospective researchers in the social and health sciences the writing style is lively encouraging upbeat r barker bausell brings science down to earth without sacrificing respect for rigor and complexity recommended for all institutions with undergraduate or graduate research requirements in the social and health sciences choice tired of research methods books that tell how to perform a research study without any mention of the why behind doing research aimed at communicating the excitement and responsibility of the research process this remarkable volume enables you to evaluate beforehand whether a prospective research study has the potential to either improve the human condition contribute to theory formation or explain the etiology of a significant phenomenon rather than to produce just another publishable study by emphasizing how to think about and strategize a research study r barker bausell shows you the important steps of a scientific study from the formulation of the problem to the write up of the results replete with illustrative examples drawn from the social health and behavioral sciences this volume is a must for all serious researchers
