in an accessible yet complex way rebekah modrak and bill anthes explore photographic theory history and technique to bring photographic education up to date with contemporary photographic practice

contemporary art photography is paradoxical anyone can look at it and form an opinion about what they see yet it represents critical positions that only a small minority of well informed viewers can usually access why art photography provides a lively accessible introduction to the ideas behind today s striking photographic images exploring key issues such as ambiguity objectivity staging authenticity the digital and photography s expanded field the chapters offer fresh perspectives on existing debates while the main focus is on the present the book traces concepts and visual styles to their origins drawing on carefully selected examples from recognized international photographers images theories and histories are described in a clear concise manner and key terms are defined along the way this book is ideal for anyone wanting to deepen their understanding of photography as an art form

advances in technology allow us to see the invisible fetal heartbeats seismic activity cell mutations virtual space yet in an age when experience is so intensely mediated by visual records the centuries old realization that knowledge gained through sight is inherently fallible takes on troubling new dimensions this book considers the ways in which seeing over time has become the foundation for knowing or at least for what we think we know a joan saab examines the scientific and socially constructed aspects of seeing in order to delineate a genealogy of visibility from the renaissance to the present demonstrating that what we see and how we see it are often historically situated and culturally constructed through a series of linked case studies that highlight moments of seeming disconnect between seeing and believing hoaxes miracles spirit paintings manipulated photographs and holograms to name just a few she interrogates the relationship between visions and visibility this focus on the strange and the wonderful in understanding changing notions of visions and visual culture is a compelling entry point into the increasingly urgent topic of technologically enhanced representations of reality accessibly written and thoroughly enlightening objects of vision is a concise history of the connections between seeing and knowing that will appeal to students and teachers of

visual studies and sensory social and cultural history

with projects ranging from posters to clothing this book helps readers explore the art of silk screening students learn through detailed descriptions built to foster creativity and problem solving fun engaging text introduces readers to new ideas and builds on maker related concepts they may already know additional tools including a glossary and an index help students learn new vocabulary and locate information
