situating the french revolution in the context of early modern globalization for the first time this book offers a new approach to understanding its international origins and worldwide effects a distinguished group of contributors shows that the political culture of the revolution emerged out of a long history of global commerce imperial competition and the movement of people and ideas in places as far flung as india egypt guiana and the caribbean this international approach helps to explain how the revolution fused immense idealism with territorial ambition and

combined the drive for human rights with various forms of exclusion the essays examine topics including the role of smuggling and free trade in the origins of the french revolution the entwined nature of feminism and abolitionism and the influence of the french revolutionary wars on the shape of american empire the french revolution in global perspective illuminates the dense connections among the cultural social and economic aspects of the french revolution revealing how new political forms at once democratic and imperial anticolonial and centralizing were generated in and through continual transnational exchanges and dialogues contributors rafe blaufarb florida state university ian coller la trobe university denise davidson georgia state university suzanne desan university of wisconsin madison lynn hunt university of california los angeles andrew jainchill queen s university michael kwass the johns hopkins university william max nelson university of toronto pierre serna université paris i panthéon sorbonne miranda spieler university of arizona charles walton yale university

how black radicals reshaped the british left making the revolution global shows how black radicals transformed socialist politics in britain in the years before decolonisation african and caribbean activist intellectuals such as amy ashwood garvey c l r james jomo kenyatta kwame nkrumah and george padmore came to britain during the 1930s and 1940s and intervened in debates about capitalism imperialism fascism and war they consistently argued that any path towards international socialism must have colonial liberation at its heart although their ideas were met with opposition from many on the british left they convinced significant sections of the movement of the revolutionary potential of colonised peoples by centring the entanglements between black radicals and the wider british socialist movement theo williams casts new light on responses to the 1935 italian invasion of ethiopia the 1945 fifth pan african congress and a wealth of other events and phenomena in doing so he showcases a revolutionary tradition that as illustrated by the global black lives matter demonstrations of 2020 is still relevant today

this explores how the american revolution was perceived in other parts of the world

from the bestselling authors of the right nation a visionary argument that our current crisis in government is nothing less than the fourth radical transition in the history of the nation state dysfunctional government it s become a cliché and most of us are resigned to the fact that nothing is ever going to change as john micklethwait and adrian wooldridge show us that is a seriously limited view of things in fact there have been three great revolutions in government in the history of the modern world the west has led these revolutions but now we are in the midst of a fourth

revolution and it is western government that is in danger of being left behind now things really are different the west's debt load is unsustainable the developing world has harvested the low hanging fruits industrialization has transformed all the peasant economies it had left to transform and the toxic side effects of rapid developing world growth are adding to the bill from Washington to Detroit from Brasilia to New Delhi there is a dual crisis of political legitimacy and political effectiveness the fourth revolution crystallizes the scope of the crisis and points forward to our future the authors enjoy extraordinary access to influential figures and forces the world over and the book is a global tour of the innovators in how power is to be wielded the age of big government is over the age of smart government has begun many of the ideas the authors discuss seem outlandish now but the center of gravity is moving quickly this tour drives home a powerful argument that countries success depends overwhelmingly on their ability to reinvent the state and that much of the west and particularly the United States is failing badly in its task China is making rapid progress with government reform at the same time as America is falling badly behind Washington is gridlocked and America is in danger of squandering its huge advantages from its powerful economy because of failing government and flailing democracies like India look enviously at China's state of the art airports and expanding universities the race to get government right is not just a race of efficiency it is a race to see which political values will triumph in the twenty first century the liberal values of democracy and liberty or the authoritarian values of command and control the stakes could not be higher

attempts to identify the main changes of the last two decades to describe the malaise which they have caused and to outline some of the most important issues and dangers which humanity has to face in unity presents a number of measures which seem especially necessary to pursue
