what explains those rare families that boast multiple siblings who achieve extraordinary success an award winning new york times journalist weaves story with science to explore the circumstances that set those families apart at once clear eyed and compassionate the family dynamic uncovers how parents and siblings shape and fuel individual success lisa damour bestselling author of the emotional lives of teenagers an olympic athlete an award winning novelist a successful entrepreneur all raised under one roof what can we learn from those families whose children aim high and succeed sometimes in widely varied fields just as important what were the costs along the way and

what can we glean from their travails and triumphs the acclaimed new york times journalist susan dominus offers compelling profiles of six such families in search of the factors that led to their success was it an inherited quality a specific way of parenting the influence of a sibling or a twist of luck inspired by the iconic brontë sisters whose remarkable literary success prompted endless speculation dominus the mother of twin teenagers sought out contemporary high achieving families who shared intimate stories of their upbringing she introduces us to the chens young parents who fled their country s one child policy to open a chinese restaurant in appalachia then sent four children to elite colleges and on to careers that give back in technology and medicine the groffs whose claim to fame is not just an award winning novelist but an olympic athlete and a notable entrepreneur the wojcickis whose daughters made inroads as stem pioneers in silicon valley and the murguias who rose from exceptionally humble origins to become powerful jurists and civil rights champions woven into these and other stories is an account of centuries of scientific research into the ongoing question of nature versus nurture elegantly written and extensively researched the family dynamic is more than a checklist of how to s it s a deep and moving exploration of the complexity of family life and the rewards and burdens of ambition

this book is a humorous semi scientific guide to understanding the nature of men and women it is a helpful source for navigating the ins and outs of interactions with the opposite sex the book starts with the beginning of sex goes through nature and nurture to a description of men and women and finally to marriage and beyond you will find checklists quizzes and a road map through the perils and pleasures of finding a mate included are interesting facts figures and advice from poets writers and romance experts whether you are twenty or fifty you will find this book a wonderful resource for the affairs of the heart john west has hit a perfect bullseye with this book it will have you laughing as you discover what makes relationships work or falter in the complicated dance of romance i wish i had read it before stepping into various relationships west thoughtfully describes the inner workings of our brains the hormonal and cultural influences that make us who we are and how all that plays a major role when we try to engage with others if you think it isn t possible to find the perfect mate read this book it makes you realize the type of person you are best suited for and helps you understand the changes you need to make to be a perfect partner cynthia l griswold rn msn fnp this book should be on all book shelves it is scientific it is insightful and it is hilarious john west captures the essence of being male and female in this modern world he explains our habits and idiosyncratic behavior in easy to understand chapters but brings you to tears with his insightfulness i cannot recommend this

to me highly enough an excellent read best book on the sexes i have encountered you are learning as well as being entertained a must read helpful for all marriages superb understanding of science and human nature you will never view the opposite sex the same after reading this book a bloody good read john brownsberger academic advisor and professor charles stuart university new south wales australia

this book provides an in depth and thematic analysis of socially engaged art in mainland china exploring its critical responses to and creative interventions in china s top down pro urban and profit oriented socioeconomic transformations it focuses on the socially conscious practices of eight art professionals who assume the role of artist critic curator educator cultural entrepreneur and social activist among others as they strive to expose the injustice and inequality many chinese people have suffered raise public awareness of pressing social and environmental problems and invent new ways and infrastructures to support various underprivileged social groups

we ve needlessly turned parenting into an unpleasant chore parents invest more time and money in their kids than ever but the shocking lesson of twin and adoption research is that upbringing is much less important than genetics in the long run these revelations have surprising implications for how we parent and how we spend time with our kids the big lesson mold your kids less and enjoy your life more your kids will still turn out fine selfish reasons to have more kids is a book of practical big ideas how can parents be happier what can they change and what do they need to just accept which of their worries can parents safely forget above all what is the right number of kids for you to have you ll never see kids or parenthood the same way again

is a voluminous and timely collection of 18 essays that addresses a number of core issues on the economics of education an exhaustive survey of the literature on the role of universities as multi product firms at various levels and disciplines identifies the nature of the economies of scope and scale this enriches the volume further economic analysis policy the endeavour of bringing together very knowledgeable contributors including some of the leading contributors to the literature in the uk and beyond to write a handbook on the economics of education is highly appreciated the handbook contains 18 substantive chapters encapsulated by a brief introduction and an extensive and a very useful index the handbook should be praised as a useful overview of the field of economics of education as it stands today ludger wößmann economic issues this major handbook comprehensively surveys the rapidly

growing field of the economics of education it is unique in that it comprises original contributions on an exceptional range of topics from a review of human capital signalling and screening models to consideration of issues such as educational externalities and economic growth funding models determinants of educational success the educational production function educational standards and efficiency measurement labour market issues such as the market for teachers and the transition of students from school to work are also explored the international handbook on the economics of education will be warmly welcomed by academic economists educational researchers and practitioners in educational management as well as policymakers comprising specially commissioned articles the handbook will become indispensable reference for this ever topical field of study

vols 2 7 contain also special bulletins pub during the same period
