In practical advice books, like anything else in life, there are no guarantees of income made. Readers are cautioned to apply their own judgment about their individual circumstances and act accordingly.

This book is not intended for use as a source of legal, business, accounting or financial advice. All readers are advised to seek services of competent professionals in legal, business, accounting and finance fields.

Registering Your Domain with a Domain Registrar: Namecheap

In this quick guide, I will show you how to register your domain with Namecheap and then connect your domain to your hosting account at A2 Hosting.

Start by visiting the Namecheap Homepage Here

In the search box, enter the name of the domain you want to register (always try and get the .com) and hit "Search".

I've gone for a .review domain since this website is only going to be used as a demo site for some of my guides, and not an actual income generating business.

N namecheap			Domains 🔹	Hosting •	,
$Domains \to Registration \to Results$					
✓ digitalsc	oftware.re	eview			
This domain is available!			\$0.48/ye Retail \$25.88/ye	ear 🛨	
digitalsoftware.review		Bulk Options	S	earch	
Popular New Dis	scounted	International	Sug	gestions	
digitalsoftware.review SALE			\$0.48/ Retail \$25.88	year 👥	
digitalsoftware.life SPECIAL			\$1.88/ Retail \$24.88	year 迚	
digitalsoftware.live SPECIAL			\$3.88/ Retail \$19.88	year	

Namecheap will now check to see if your domain is available for registration.

If it is, you can add it to your cart to purchase.

If it's not available, you'll have to come up with a different name.

Inside your A2 Hosting dashboard, click on your hosting package under "Your Active Products/Services.

This will take you to the Connection Details screen of your hosting account.

This is where A2 Hosting's Nameservers are displayed.
